

# Lake Tahoe : Memory

NEXT WINTER

JUMPING FROM SAUNA INTO SNOW

I PAINTED AND BEAN and subtle walls (peter sloterdijk)  
web of cavities over the lake in its majesty, power and free will (paracelsus)

CIRCLED THE DESERT every creature

approaching Shoshone

wall of fragrance

in every bare

footprint 13

species

wildflower

having senses we don't

communities send messages via chemistry

RNA selects for stressers

innate insecticides

a body's antibiotic system

thymus educating T-cells

what direction is the sun

smell the moisture

navigate by the north star

bushwack

memorize by looking behind

contours

if you're lost always walk downhill

or follow a streambed

CHICORY RECOVER A FAWN  
AT NORTH POLE

contours boulder hopping  
traverse the slope

the North Grove ranger's fawn  
DIVING OFF

having many senses we don't  
sending chemical messages to their kind

innate insecticides

the definitive segmental organization  
for functional reasons
