

Water (Mercury)

Coronets of crystal strickle, grackle, creak
 Pleep, pop, black humus sopped, seeps
 Glister mud-sweat raises rainbow mists
 Vaporous whim whispers aways wool bowers
 Towers drop, pling, plop, keen, cry
 Swarming asps pli , sway, fissure, splay

Tune towards others, bumbling bubbles spew
 Leap! Leap! Brook trout burble, bibble,
 Wing d water-dancer's answer. Banks breed
 Emerald wells, wishes, riches. Umbilical queens
 Course Luxor, Ur.  -go-go transparent cargo:
 Amnia, ego, realms. Currents pull, trill, pool,

Resplendent generation brims the costume room's
 Womb: urchin, stingray, dolphin. Plethora plankton,
 Primrose of life. Carnivorous, circling free
 Sucks tsunami growl, shimmers electrolyte sweep,
 Plummets phosphoric pearly cells, communes, croons,
 Shells, strands, destines. Wing d ankles comb cerulean

To quicksilver. Velvet winter, lanugo that washes us awake,
 Undulate wake suddenflood trestles withershins,
 Clarity and luster of a gem, aesthetic rogue communicate
 Trough and crest shifting destiny to will, *Leap!*
 Pandora's flight of persuasion, svelte transom
 Hermaphrodite, m bius ribbon of story and song.
